# 2026 Course Catalog

## Aesthetic Education · Hands-on, CME-accredited aesthetic medicine training

Aesthetic Education offers hands-on training for physicians, nurse practitioners, physician assistants, registered nurses and dentists who want to add aesthetic and regenerative procedures to their practice. Every course combines online didactic modules with a hands-on day of live patient practice in small groups (6 or fewer) under direct physician supervision. Graduates receive a certificate of completion with CME credits and post-course support from the clinical team.

### How a course works

- **Register online** for the date and city that suits you.
- **Complete the online modules** on demand and pass the post-test before your hands-on date.
- **Hands-on day:** treat live patients under direct MD supervision at a hotel or conference venue.
- **Get certified:** certificate, CME credits and post-course support.

### Training locations

Miami, Orlando, Tampa, New York, Los Angeles, Chicago, Houston, Dallas, Boston, Las Vegas, Atlanta, Seattle, Denver, Philadelphia and San Juan (PR), plus Toronto, Vancouver and Montreal. Practitioners from Latin America, the Caribbean, Europe and the Gulf attend the hands-on day in the nearest US city after completing the online modules from home.

### Dates & pricing

Course dates are added every month and tuition varies by course and bundle. See current dates and pricing at **aesthetic.education/course-calendar** or call **866-261-5164**. Financing and payment plans are available on most courses.

---

# Courses

## Botox & Neurotoxin Training

Hands-on Botox and neurotoxin training for physicians, nurses, dentists and PAs. Facial anatomy and danger zones, dosing and injection technique for the upper face, patient assessment and consent, complication management, and live patient injections under MD supervision.

aesthetic.education/courses/botox-training

## Dermal Filler Training

Hyaluronic acid filler techniques for lips, cheeks, nasolabial folds and jawline. Product selection (Juvederm, Restylane, RHA, Belotero), needle and cannula technique, vascular safety and hyaluronidase protocols, live patient practice.

aesthetic.education/courses/dermal-filler-training

## Master Lips Training

Specialty lip augmentation course covering advanced lip filler techniques, vermilion border definition, volume enhancement and contouring, with hands-on practice.

aesthetic.education/courses/master-lips-training

## PDO Thread Lift Training
